Denver, Colo., April 10.—Railroad and telegraph companies today were reeling from the effect the snow and sleet storm which swept the southern Rocky Mountain region Tuesday and Wednesday. Trains which had been tied up by snow blockades in western Texas and New Mexico were reported moving, but far behind schedule. Because of demoralized wire conditions, the railroads were unable to give definite reports on the delays to trains other than they were from one and a half to ten hours late.

The snow fall in New Mexico varied from six to ten inches. Live stock losses except in the Kansas valley were sheep raisers were reported to have suffered heavily were said to be slight.

(Associated Press Telegram)
Dallas, April 10.—The toll of Tuesday night's storm in north Texas, southern Oklahoma and a part of Arkansas had reached early today a total of 100 deaths with hundreds reported injured, and a property loss that probably will run into millions of dollars.

The injured, some of them so badly hurt that they cannot recover, are expected to number several hundred. The property damage, while it will run into millions of dollars, will be smaller than at first expected since the path of the storm avoided all of principal cities, striking only farm houses and smaller villages.

Many points still are isolated and the number of families in the area increased when full details are available, as the tornado swept through thickly settled farming communities. Of the 82 reported dead, 42 have been identified.

Reports from communities show the following deaths:
Cannan, Tex., 4.
Durant, Okla., 1.
Wood County, Tex., 4.
Wood County, Okla., 1.
Ector, Tex., 2.
Ravenna, Tex., 8.
Mina, Tex., 11.
Tulsa, Tex., 8.
Winnebago, Tex., 15.
San Angelo, Tex., 1.
Texarkana, Tex., 1.
Newsome, Tex., 6.
Pleasant Grove, Tex., 2.
Bustace, Tex., 1.
Ordan, Ark., 1.
Waco, Okla., 1.

The storm came up from the Rio Grande Valley, with a high wind and heavy rain, gaining force until it tore through the northern tier of Texas counties with the destructiveness of a tornado.

Last night the homeless were cared for by the neighbors. The storm in its erratic course did not devastate any entire regions often leaving several houses untouched and then dipping in and demolishing the next few homes. The temperature dropped to freezing along the northern line of counties after storm.

The counties most seriously damaged were Conway, Fannin, Hunt, Wood, Vanant, Wichita, Collin, Camp and Titus in Texas and Bryan, Cotton and Pontotoc in Oklahoma. The oil fields of Wichita county and of southern Oklahoma suffered hundreds of thousands of dollars' damage in wrecked derricks and machinery.

The hour at which the storm struck probably caused the high death rate. Nearly all of the houses destroyed contained sleeping people. In most cases the first the occupants knew of the storm was when the walls crashed down upon their heads.

GENERAL SCOTT IS
AGAIN RETIRED

(Associated Press Telegram)
Washington, April 10.—Major General Hugh H. Scott, former chief of staff, was relieved today of command of Camp Dix, N. J., effective upon the arrival there of Brigadier General Harry C. Hale, his successor. He was ordered to proceed to his home for return in the retired list of the army from which he was recalled for active service.

Brigadier General Hale, George H. Shelton and Charles H. Cole were ordered to report to the headquarters of the northern department at Boston for temporary duty with the 26th division in connection with the parade of the 1st Four to Columbus. They will be in these cities tomorrow.

THIS BABY SMILES, AND WHY NOT?
DADDY STARTS HOME FROM FRANCE TODAY

Baby Robert L. Hoskinson is smiling so very brightly because he just knows his soldier-daddy is going to be sent home mighty soon now. A letter from dad over in France says he will sail for home April 10.

Baby Robert has never seen his dad, but he knows he is going to like him. The happy looking little mite is the son of Private Leonard B. Hoskinson of Columbus L, 140th infantry, 35th division.

The baby's mother lives with Mrs. Hoskinson's mother at Basel, where both mother and little son are awaiting the return of the husband and father.

Other soldiers' babies, whom the father has never seen, are living in Newark, and The Advocate would like to have the pictures of these babies.

Old Fifth Regiment of National Guard Marches Under Victory Arches Covered With Flowers.

(Associated Press Telegram)
Cleveland, April 10.—With exploding bombs, ringing of church bells, shrieks of factory whistles and the tears and cheers of many thousands of visitors from northern Ohio joined with the hundreds of thousands of Clevelanders, a whole souled gratitude of a proud people spoke forth a thunderous welcome today to more than 2500 returning Ohio soldiers' members of the 145th Infantry (Cleveland's old Fifth regiment, Ohio national guard) and the 12th engineers.

The sun bronzed boys who reached Cleveland yesterday afternoon and last night were greeted with a reception such as Cleveland has never witnessed before when they paraded the down town section this morning through cheering crowds that lined the entire line of march. The troops wore their overseas service caps, with helmets hanging at the belt and each carried his rifle and pack.

Flags draped and hunting swathed buildings greeted the boys as they proceeded over practically the same route as that of last week when other units of the thirty-seventh division paraded. It was the largest strictly military parade here since America entered the war. Approximately five thousand uniformed men were in line passing through three floral arches and a court of honor.

Colonel D. S. Van Garder of Warren, was in command of the officers and men of the 145th regiment. Lieutenant Colonel Frank B. King, of Philadelphia, also of the 145th, was at the head of the 1113th officers and men of the engineers.

The Grand Army of the Republic, Veterans of foreign wars Spanish war veterans and veterans of the Ohio engineers with several bands and the mayors war board formed the escort.

Brigadier General C. N. Zimmerman, commander of the old Fifth regiment before the war and under whom it served part of the time in France with the 3rd brigade, marched with the mayors committee. Brigadier General V. S. Stanbery of Cincinnati, successor of Brigadier General Zimmerman and former commander of the 145th and Lieutenant Colonel Ralph D. Cole of Philadelphia, also of the 145th were in the reviewing stand.

The parade terminated at Central armory where the men were served a dinner, after which a reception was given.

After the dinner and reception at Central armory the soldiers were given leaves of absence until 4 p. m. auto trips, theatre parties and sightseeing tours occupied the time. Both units will return at 7 p. m. tonight. The 145th goes to the theatre and later to the 12th engineers will go to the 1st Four to Columbus. They will be in these cities tomorrow.

CIVILIANS TO GET
HUN ARMY SUPPLIES

(Associated Press Telegram)
Cologne, Wednesday, April 9.—Millions of dollars worth of material abandoned by the German army will be sold to civilians in the American occupied zone under United States army supervision. It was announced today upon receipt of authorization from American general headquarters. No arms or ammunition will be included in the property to be disposed of Germans, nor will any material be made available to the German army.

The material consists of several hundred thousand wooden shoes, coats with paper linings, paper harness, cooking utensils, waxes, cars, and vast quantities of other articles. The army has no interest in the material, but the government is interested in the right of determination.

(Associated Press Telegram)
Berlin, Tuesday, April 9.—The resolution adopted at the opening session of the soviet congress here tonight pre-emptorily demanding the release of George Ledebour, the Independent Socialist leader, arrested during the Spartan outbreak, has placed the Prussian and national government in an awkward predicament. The demand was based upon the fact that Herr Ledebour had been elected a delegate to the congress and the contention that he should be permitted to exercise his duties in that connection.

The adoption of the resolution was widely applauded and the officials of the congress had no choice but forthwith to address messages to the national and Prussian governments, the state's attorney and the authorities of the Moabit jail where Ledebour is confined, appraising them of the wishes of the soviet delegates. Up to this evening no official action had been taken. The members of the government are booked to leave for Weimar early Wednesday morning.

The Prussian ministry of state is said to be opposed to setting Ledebour free, but the independents propose to press the issue to the limit and hurry a decision.

Among the resolutions introduced in the congress is one calling upon the government to appoint five delegates of the congress as members of the German peace delegation.

Berlin, Wednesday, April 9.—Diplomatic relations have been established between the Russians and Bavarian soviet governments, according to the Zwofuhrblatt.

As late as April 8 the Russian soviet government had not got into touch with the Bavarian soviet authorities, according to a wireless message that date from Nikolai Lenin, the Russian Bolshevik premier, who sent the message to Bela Kun, the Hungarian revolutionary leader, asking him to send details of the revolution in Bavaria.

"We have only the barest announcement," Lenin's message said.

Berlin, Wednesday, April 9.—Government troops are reported to have entered Essen and to have occupied the Krupp plant, which according to previous reports had been seized by the Essen strikers. The troops posted have machine guns at the entrance to the plant. As a result the intervention by the government forces, the advice given to the strikers by the workmen resumed their labors.

The people of Essen, the message adds, became greatly excited during the operations of the troops, the latter having thrown hand-grenades in the midst of crowd plundering a baggage train from Saxony much unrest is reported. The communists of the Vogtland district in southwestern Saxony have issued a demand that Saxony be made a soviet republic, while the metal workers at Zwickau, southwest of Chemnitz, and a large proportion of the Saxony miners have gone on strike.

BABY LOST IN RUNAWAY FOUND AFTER
SHORT SEARCH WITH AID OF LANTERN

Mr. and Mrs. Byron Detwiler of Summit Station, lost their baby. It was a small baby, and in the dark they could not find it, so a lantern was secured and the baby found.

The loss of the child resulted when the little family of three were in a runaway accident. Mr. and Mrs. Detwiler and the baby were returning from Summit Station, Saturday night, and the horse became frightened and ran away. The buggy was upset and the occupants thrown out. Detwiler was thrown under the buggy and the horse started kicking, breaking away from the vehicle.

The baby had been thrown some distance from the buggy and the father and mother had to secure a lantern before they could find it. All escaped with a few minor bruises.

YANKS IN RUSSIA KICK ON WAR
AGAINST REDS; OFFICER APPEALS

(Associated Press Telegram)
Archangel, Wednesday, April 9.—A company of American troops recently showed some hesitation in returning to the fighting front, south of Archangel, declaring that the war with Germany was over and that the United States was not at war with the Bolsheviks. The regimental commander, in a speech, said that they were fighting a desperate defensive battle and appealed to them to stick it out. The company then left for the front.

The situation arose when the company returned to the United States and the officers were informed that the men did not want to go to the front again. They asked to have their arguments answered. The men contended that they were drafted men conscripted for the war with Germany which was finished now that America was not at war with the Bolsheviks, that the entire Bolshevik question was the

subject of much political debate and indecision in the United States and that so far as they were concerned they were unable to see why they should be fighting if there was no war.

The regimental commander said that perhaps their own lives depended on the fighting on this front and then made his successful appeal reciting to the men traditions of the American army.

Employment Agent Says
Conditions In Newark
Show Great Improvement.

The labor condition in Newark is adjusting itself, and the local free employment bureau has had more call for labor than it can fill.

The office which was transferred to the basement of the court house is still operating and will be continued. There are calls for laborers and farm help, both married and single.

Condition locally are much improved both through the efforts of the employment bureau to place the unemployed through the natural road of adjustment of conditions. Monday there were 35 jobs open at the bureau and 17 were filled.

DEMOCRATIC LEADER
TO SPEAK ON LEAGUE

(Associated Press Telegram)
Columbus, April 10.—Homer S. Cummings, national Democratic chairman, conferred with Ohio Democratic organization leaders today at the suggestion of a luncheon at noon, attended by Democratic state and county committee men and Democratic editors and is to speak tonight before a mass meeting at Memorial hall.

United States Senator Alton Pomeroy and Governor Cox also attended.

H. S. CUMMINGS.

The luncheon at noon today with Cummings and other leaders of the Democratic party was held in the same platform with him tonight.

Edward Moore of Youngstown, national committee man from Ohio, W. W. Durbin, chairman of the state executive committee, W. R. Gougeon of Cleveland, John A. O'Day of Toledo, and W. A. Johnson and Thomas Norton, of Cincinnati and Frank Ross of Columbus were among the party leaders in conference with Cummings. They discussed the 1916 presidential campaign and organization work preliminary to that drive.

Cummings asserted that the League of Nations will be the overwhelming political issue in 1920 unless the senate ratifies the covenant.

GOOD PROGRESS IS MADE
SAYS THE HOUSE MESSAGE

President and Mrs. Wilson
Call on Queen Marie of
Rumania.

(Associated Press Telegram)
Washington, April 10.—President Wilson is "hammering ahead" and has made "good progress" in his negotiations in Paris, according to advices received today at the White House. It was not stated just what progress had been made, but the advices seemed to cause considerable satisfaction in official quarters.

Paris, April 10.—The publication in Paris today of a statement attributed to British sources to the effect that the terms of the peace treaty would not be terms of the peace treaty would not be peace conference until after they had been communicated to the German representatives caused comment among delegates of the nations not represented on the council of four.

The publication brought out from the American mission the statement that it was opposed to such a plan.

President Wilson, Mrs. Wilson, and Rear Admiral Grayson, his physician, called upon Queen Marie of Rumania, at her temporary residence here before this morning's session of the council of four.

BELGIUM MAY TRY
KAISER FOR CRIMES

Paris, April 10.—The responsibility of the German emperor for the war and the means for bringing him to trial by an international tribunal, probably Belgium, have been definitely determined upon by the council of four.

This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years. Reparations will be assessed on the basis of the remaining damage for a period of 30 years, beginning May 1, 1921.

The council also reached an agreement on the Saar Valley. The agreement leaves sovereignty over the valley unchanged until after the free production of the mines destroyed in the Lens mining district, with the privilege to the Germans of restoring the mines and thus relieving the Saar Valley of that charge.

Thus three of the great obstacles which stood in the path of the rapid attainment of peace have been removed within the last 24 hours, and the period of extreme tension over the inaction and the failure to obtain tangible results is succeeded by revived confidence over the great advance made toward a permanent settlement.

How far these results are due to the intimations conveyed by the summoning to France of the United States transport George Washington by President Wilson, is not conjectural. But it is at least a coincidence that the main difficulties began to dissolve from the time that this decision became known.

The exact nature of these difficulties are not disclosed. Friends of the president maintain that the war, largely of a minor character, not involving large principles, though the president's adherence to his "14 points" as the rigid limitation of the scope of action appears to have run all through the deliberations during the tense period of the last few days.

While the tension has been greatly reduced, it is not entirely removed, as much depends on the continuation of progress with respect to the remaining obstacles, notably the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

The agreement on responsibility for the war is understood to have been a compromise between division of responsibility by the commission of which Secretary Lansing is chairman. There was a practical agreement on the general responsibility of the German emperor for bringing of the war, but division occurred on whether it was feasible to bring him to justice before an international tribunal.

Diamond SQUEEGEE TREAD

Tires Mark these 3 Continuous Bars on the Tread

How quickly a railroad coach would pound to pieces if it had to jump three inches from one rail to the next. Skips or gaps in the rolling surface of tires are equally disastrous.

Those three continuous ribs on the Diamond Squeegie Tread give as smooth a rolling surface as though it was a smooth tread tire. "More - Mileage Ribs" we call them, for they put more rubber right where the wear comes.

Yet that scientifically designed Diamond Squeegie Tread lasts forward and side skids. It adds mileage—you'll run a Diamond thousands of miles before you wear down those Squeegie Ribs. Cut your tire upkeep with a Diamond.

Geo. M. Colonel Lansing Beach of Washington has written to the Chamber of Commerce to furnish tonnage data in reference to the proposed restoration of Ohio canals.

The data is asked based on the proposal that the canal route should run through Newark, Columbus and Portsmouth. The sign of the cross on the ballot paper indicates the voter's choice in this country, but in some foreign lands the method of voting is different. In Belgium, for instance, on the voting paper a black square with a white spot in the center is printed after each candidate's name. The elector votes by blackening out as many white spots as he is entitled to. In Greece leather balls are substituted for voting papers. The ballot boxes are so constructed that the voter can drop one of the balls secretly into a chosen receptacle. In some districts of the United States ballot papers have been supplanted by voting machines, which indicate the state of the poll throughout the day of the election. In one or two countries, in order to obtain greater secrecy, the voting papers are enclosed in envelopes before being dropped into the ballot boxes.

Monarch Feared Death.

Versailles is a little more than 11 miles from Paris. Its palace was built by Louis XIV. This king of brilliant personality and compelling magnetism had a palace at St. Germain, a favorite summer residence of his ancestors, but Louis Quatorze disliked it because from its windows he could see the tower of St. Denis, a church in which slept in vaults and mausoleums the royalty of France. Louis was enjoying the full richness of life and he hated to be reminded that the time would come when inevitable Atropos would snip the thread of his life. And yet it is interesting to note in this connection that when the king actually came face to face with death he remarked, "It is not so hard to die as I thought it would be."

COLUMBUS PREPARES TO WELCOME TROOPS

Columbus, April 10.—The Capital City is preparing today for its third welcome tomorrow of returning troops of the 57th (Ohio National Guard) division. More than 3,000 men representing units of the 148th infantry, 112th supply train, 112th engineers and the 134th field artillery will be represented in the parade. First units of the 112th supply train arrived in the city shortly before noon today. Three special trains bearing the 148th infantry are expected to arrive during the early afternoon. Batteries C, D, E and F of the 134th field artillery are expected to arrive late in the day. The 112th engineers will not arrive until tomorrow morning.

JAP CIVILIANS ARM SELVES FOR PROTECTION

Seoul, Friday, April 4.—Leo A. Bercholz of the American consulate here, has made inquiry of the Korean governor general relative to the appearance on the streets of Japanese civilians armed with heavy clubs suggesting that such practice might be dangerous to the lives of foreigners. He declared that if the armed civilians were attached to the police force, they should be so designated, and if they were not, the practice should be abandoned, and expressed the fear that if such action were not taken foreigners might adopt measures for self-protection, which might bring about an undesirable situation.

In his reply, the governor general admitted that the Japanese were armed, but said they had done so to protect themselves against the Koreans. He said the civilians were not attached to the police force, but gave assurance that the government would do its best to prevent abuse of the practice.

URGE FARMERS TO BUY VICTORY LOAN BONDS

Washington, April 10.—An appeal to farmers to buy Victory Liberty notes and to assist in every way possible in the loan campaign which starts April 21 was issued today by heads of 36 leading agricultural organizations, state and national, through the loan publicity bureau.

"No finer patriotic service was ever rendered," said the appeal addressed to the farmers of America, "than when the farmers of America, short of labor, credit and farm supplies, still grew the increased crops without which we could not have won the war. The more that is known about the war, the more gloriously our farmers part in it will shine."

"The Victory Liberty loan drive begins April 21 and continues until May 10. We appeal to you, farmers of America, to finish what you have so well begun. Make this loan as superb a success as the war crops you have raised. See to it that the farmers lead in putting the victory loan over the top."

FIRST HUN LINER SAILS FROM BREST

Washington, April 10.—The navy department was advised today of the sailing from Brest of the first of the 12 German passenger liners allotted to the United States for the homeward movement of American troops. The vessel is the Kaiserin Augusta Victoria, and she has aboard approximately 2,000 officers and men who will be landed at New York. The department has no information as to the units on board.

Mystery in Plant's Presence.

The Chilean provinces of Atacama, Tarapaca and Tacna are in the rainless region, or desert country west of the Andes, and are entirely devoid of vegetation. The winds in all of this region are from the east, and in passing over the elevated perpetual snows of the Andes are stripped of their moisture and arrive on the coast perfectly dry. The last rain, a slight shower which fell in Antofagasta, in Atacama province, was the first rain which had fallen in 16 years. The last rain which fell in Iquique, in Tarapaca province, was the first in 24 years. With both of these showers a notable phenomenon occurred. The hills back of these cities assumed a green tint from a little plant which sprang up almost in a night. The query is: "From where did this plant come?"

The Gray Squirrel.

The gray squirrel is found in the northern part of both continents. He is in shape like a common squirrel; the outward difference consists in his size; he is larger than squirrels usually are; instead of not being light, or deep gray, and his ears are not so hairy toward the extremity as are those of other squirrels. Many authors consider the European species different from those found in America; that the gray squirrels of Europe are of the common kind, and that they change their color according to the season, in the northern climate. Without denying absolutely this assertion, which does not seem sufficiently proved, we look upon the gray squirrel of Europe and America as the same animal, and as a distinct species, separated from that of common squirrels, which are found in the northern part of both continents, being of the same size and of the same color.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allenbri Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Evans' drug store can supply you.

SAYS WIFE STOLE \$75 AND DESERTED HIM

Two divorce petitions have been filed in probate court. Charles D. Hartman and Dora M. Hartman were married April 14, 1897 in Hebron, and are the parents of three children. Hartman alleges that she has been guilty of extreme cruelty and that in March, 1918, she stole a check for \$75 from him, endorsed it and deserted him; that she called vile and indecent names and would not prepare his meals and entertained other men at their home while Hartman was away at work. He asks for a divorce and custody of the children.

Cora Weyersmiller has filed a petition against William Weyersmiller. They were married April 3, 1901, and are the parents of three children aged 17, 14 and 12 years. For ten years, Mrs. Weyersmiller alleges she has supported herself and family by her own exertions; she states that Weyersmiller is an habitual drunkard and squanders his money and that he has been guilty of extreme cruelty in that he has struck her on numerous occasions and called her vile and indecent names. She asks for a divorce and custody of the children.

LIEUTENANT BROWN WILL RETURN EASTER

Mrs. J. A. Brown received a cablegram yesterday from her husband Lieutenant J. A. Brown, U. S. N., saying he would arrive in New York April 20. Lieut. Brown was put on the U. S. LABOR IS AROUSED.

Organized labor of Ohio has issued another sharp rebuke to the Republican general assembly for overriding the veto of Governor Cox on the Miller bill, throwing the Industrial commission into politics, and a referendum will be held in November to repeal the legislature's action.

Notwithstanding direct charges that concerns in Ohio and the nation, unfriendly to the workmen's compensation law, were trying to discredit it and its operation, and without a single labor organization or a single employer of labor, asking a change, the Republican majority in both houses was able to muster enough votes to pass the measure over the veto. It was a party measure and the party must be responsible for it.

The Ohio Federation of Labor in a resolution, unanimously adopted, characterizes the action as a "subtle attack on the administration of the workmen's compensation law and an attempt to throw the activities of the industrial commission into a political spoil system."

The Federation of Labor also voted to ask the House to amend the Whittemore resolution, calling for an investigation of state bureaus and commission by striking out "actuarial" in the section relating to the Industrial commission. It is plainly evident that this resolution as regards the Industrial commission and the above mentioned Miller bill, have identical purposes, which have to do with the wrecking, crippling or disruption of the workmen's compensation law in Ohio—a law that has been selected as a model to be followed in 12 other states. Concerning this the Federation of Labor in a resolution says: "It is also an effort on the part of certain persons to employ liability insurance actuaries to pry into the workmen's compensation fund awards."

Organized labor will have the support of employers of the state and there will be no doubt of the crushing rebuke the Republican outfit will receive at the polls.

THE PARRETT BILL.

Commercial organizations and business men in various parts of Ohio are expressing approval of the Parrett bill which provides for the construction of a Commerce and Journalism building at Ohio State University.

This department of the big university at Columbus has grown rapidly and the present facilities are inadequate.

It is felt a new building should be constructed with reference to the specialized needs of courses in commerce, journalism, social service, public administration and bureaus of research. It should contain rooms and specialized equipment for accounting, banking, statistics, economy, geography, domestic and foreign trade.

He says, "Ma'am, for the love of heaven kin you give me a few bites to eat?" he says, "I hadn't saw no bread for four weeks," says he. So Lott, being kind o' soft, let him in and set him out a nice repast. Lott, which she is a ole maid. "Did the girl jilt you?" says she. "Jilt me? Gosh, no," says the man, "she married me," he says.

The needs of the state for the kind of professional training which is being developed by the College of Commerce and Journalism will continue to grow. To provide the college with adequate and proper facilities for rendering to the business classes and local communities of Ohio the quality and quantity of educational service that they need, and that they deserve to have at the hands of the university, is to promote a vital element of the public welfare.

The development of Journalism at O. S. U. is in competent hands, the men at the head being Dean Hagerty, Prof. Myers and Prof. Osman C. Hooper, practical newspaper men. Mr. Hooper has for years been associated with the Columbus Dispatch and is a trustee of Denison University.

Did You Know
 That celestial globes are much more ancient than terrestrial ones? The earliest one known was made of copper engraved in the Arab-Cadic character of the 11th century. It is now in the Bibliotheque Nationale in Paris. Emperor Frederick II had a celestial globe of gold, probably also of Arab manufacture, on which the stars were indicated by pearls. The earliest terrestrial globe of any importance is one of Martin Behaim of Nuremberg, bearing the date of 1492. It is about twenty-one inches in diameter, and is made of pasteboard covered with parchment. It is still preserved at Nuremberg.

DAVID B. BARKELEY.

Private, Co. A, 356th Infantry.

Private Barkeley (deceased) was decorated for conspicuous gallantry in action near Pouilly, France, November 9, 1918. When information was desired as to the enemy's position on the opposite side of the river Meuse, Private Barkeley, with another soldier, volunteered without hesitation and swam the river to reconnoiter the exact location. He succeeded in reaching the opposite bank, despite the evident determination of the enemy to prevent a crossing. Having obtained his information, he again entered the water for his return, but before his goal was reached, he was seized with cramps and drowned. His mother, Mrs. Antonio Barkeley, lives in San Antonio, Tex.

DOING THINGS.

(Ohio State Journal)

When it comes to a peace conference, the last one you think of is General Foch. He is the statesman who sees the issue before him and instead of referring to a committee to examine and report, he says this is the thing to do and he does it. That is the way he settled the Danzig matter, that had been bothering the European statesmen for weeks. Foch seized the event and sent the troops into Poland without rising a rifle. How big statesmen do stir up troubles! As a general thing an issue is always well solved if a great man does as he pleases, or if a lesser one takes the middle way between the contenting hosts, for it may be settled beyond all doubt that when two opposite opinions are fighting one another fiercely, neither is right, but their side may have enough merit to insure a safe middle way. Gosh, but we wish they could hire us at \$1.10 an hour to run this world. If at any point we failed we wouldn't call in the Big Four. We would send for Foch.

THE LEAGUE OF NATIONS

BY HENRY VAN DYKE
Formerly U. S. Minister to the Netherlands

First let us try to clear away the dust of some common mis-statements or misunderstandings in regard to the League of Nations.

It is said that it is a new and radical idea, invented and pushed by General Foch. He is the statesman who sees the issue before him and instead of referring to a committee to examine and report, he says this is the thing to do and he does it. That is the way he settled the Danzig matter, that had been bothering the European statesmen for weeks. Foch seized the event and sent the troops into Poland without rising a rifle. How big statesmen do stir up troubles! As a general thing an issue is always well solved if a great man does as he pleases, or if a lesser one takes the middle way between the contenting hosts, for it may be settled beyond all doubt that when two opposite opinions are fighting one another fiercely, neither is right, but their side may have enough merit to insure a safe middle way. Gosh, but we wish they could hire us at \$1.10 an hour to run this world. If at any point we failed we wouldn't call in the Big Four. We would send for Foch.

Why, then, have not the efforts to realize this idea in the past succeeded. And why should they be continued. My answer is threefold. First, many of them have partly succeeded, and have kept the peace of the world for long periods of time. Second, the reason why they ultimately broke down was because they either were built on a false principle, like the Holy Alliance of 1815 which proposed to uphold the divine right of monarchical institutions, or they lacked the necessary machinery, like the Hague Conference, which had no power behind it. Third, the failure of those early efforts should no more lead to the abandonment of the idea than failure of a hundred early efforts led to the abandonment of the idea of the automobile and the flying machine. If the end is good the means should be sought until they are found. Experience should guide us not to despair, but to wiser effort on the path of hope.

It may be admitted without feeling danger of contradiction that the President of the United States has some influence in Europe. He is the statesman who sees the issue before him and instead of referring to a committee to examine and report, he says this is the thing to do and he does it. That is the way he settled the Danzig matter, that had been bothering the European statesmen for weeks. Foch seized the event and sent the troops into Poland without rising a rifle. How big statesmen do stir up troubles! As a general thing an issue is always well solved if a great man does as he pleases, or if a lesser one takes the middle way between the contenting hosts, for it may be settled beyond all doubt that when two opposite opinions are fighting one another fiercely, neither is right, but their side may have enough merit to insure a safe middle way. Gosh, but we wish they could hire us at \$1.10 an hour to run this world. If at any point we failed we wouldn't call in the Big Four. We would send for Foch.

the American nation no power to make agreements, treaties, pacts with other nations, without forfeiting sovereignty? That preposterous theory would set our country in solitude like Ishamel—his hand against every man and every man's hand against him."

But that theory will never be portended by serious statesmen, or accepted by real Americans. Already we have made many treaties—some of them like that of 1817 with Britain, pledging mutual disarmament along 4,000 miles of Canadian frontier—others like that of 1907 with Panama, guaranteeing the territorial integrity and independence of that small Republic—others like those of 1914-1916 with a score of American, European and Asiatic nations, promising not to engage war or begin hostilities for any cause without a previous reference of the dispute to an international commission of investigation and conciliation. Has our sovereignty thereby been lost? I know not it has been asserted and vindicated, but it will be by our future war or peace hostilities for any cause without a previous reference of the dispute to an international commission of investigation and conciliation. Has our sovereignty thereby been lost? I know not it has been asserted and vindicated, but it will be by our future war or peace hostilities for any cause without a previous reference of the dispute to an international commission of investigation and conciliation.

"Well, anyhow," says the objectors, "this proposed league is contrary to our Constitution; it takes away the powers of Congress; it thrusts out the Monroe doctrine, and binds us to send our boys to fight in every war that breaks loose anywhere."

If that were true all of us ought, in my opinion, to agree to it. But will you believe it, there is no trace of any of those charges in the proposed draft of the League. Not a single one of them is true.

Nobody has proposed that the treaty shall become a part of our law by any other than a Constitutional method, namely, ratification by the President and Secretary of State, and ratification by the Senate.

Nobody has proposed to throw out the Monroe doctrine on the contrary Article X of the draft leaves it valid for America, and extends it by saying that the territorial integrity and independence of all States members of the League shall be respected, and preserved against external aggression, thus as to the means of carrying out this obligation, the council of the League can only advise and the nations are at liberty to follow the advice if they choose.

Nobody has proposed that the provisions of the draft shall be put into effect in any other way than by the ratification of the League of Nations. For example, the Congress of the United States will not give its constitutional power to negotiate commercial treaties with foreign nations to define and punish offenses against laws of nations, to declare war, to raise and support armies. The League does not suggest that anybody extend Congress shall do these things for the United States.

Nobody has proposed to bind the United States to send its armies or sailors to fight anywhere of the command of the League or its Council. On the contrary, Article XVI of the draft of the Covenant, while providing in effect that the members of the League shall take off commercial barriers and all relations with each nation shall be without prejudice to each nation's right to maintain or to enter into a defensive alliance with any nation, expressly states that in re-

spect to the employment of military or naval forces the Council of the League shall have authority only to recommend what part, if any, the various nations shall take. As a nation we shall stand in the League with our rights, powers, and duties intact. Congress, representing the people of these United States, will still be the only body to determine whether we shall stay out of war, as we did in 1914, 1915, 1916, or go into the war against war, as we did, thank God, in 1917.

Let us dismiss from our minds, then, all those bogey pictures of the League of Nations which the politicians have painted. Let us get away from the phony idea of downing or boosting any particular man by our action upon this subject. America is far too large and great to follow any such petty and personal policies in a matter so really as this proposed League of Nations really concerns her own highest interest and the welfare of the world. Her attitude on this momentous question must be based upon the facts in the case, clearly seen and rationally judged. The important thing to do then is to ask what this proposed League of Nations really is. This will be discussed in a subsequent article.

Mr. Hughes often preached to a congregation who met at a school house some distance from the church. On his way he passed thru a piece of woods. One Sunday afternoon he saw a man coming to meet him carrying a gun on his shoulder. When the man saw the minister he hid the gun behind a tree. The minister saw what he did and said to the man with a warm shake of the hand, said, "I thought that my horse might be afraid of a gun. That is the reason I am leading him. He was never known to be outwitted. Elder Hughes, as he was then called, was a fine scholar, a deep thinker, a safe counselor and a true friend."

"The last time I saw him was the day that he hid our family farewell. In a short time after, he passed into the bright beyond. On leaving our home he placed his hand on my head and said, 'God bless you my dear little child.' I was then thirteen, now I am eighty-two. I am not the least superstitious. I never thought it best to spend time reviewing the past. The present and future I enjoy most. Still, when my attention is called to the circumstances, I can feel the pressure of that hand and hear those words as distinctly as though they were only spoken yesterday. They have brightened my life helping me to surmount many difficulties. I always feel sorry for the many thousands of children in the world even in our own Christian land who have no one to bless them, no one to tell them of Jesus—who can make their lives happy and give them a passport to eternal happiness beyond this life. Many of our organizations here have passwords to admit the members; but do we all have a password to admit us into the Celestial City, a beautiful haven of rest?"

It is reported that the conductresses in Vienna are unable to collect fares from riders on the footboards and buffers of the electric cars, thereby entailing a daily loss of something near \$3,000.

At a meeting held at Pittsburgh plans were made for the organization of a National Mothers of American Democracy, every member of which will be a mother of a soldier.

A LOOK BACKWARD

(By Martha Evans)

Martha Evans of Granville is a granddaughter of Rev. Thomas Hughes, a Baptist minister who occupied the pulpit of a church north of Granville years ago. Speaking of ministry she said to the Advocate yesterday:

"Many years ago during the sixteen years' ministry of Rev. Thomas Hughes, a little difficulty arose among a few of the members, which caused him much anxiety. I can not recall just now, the cause of the trouble, still I am quite sure that it was not as large as a mountain; perhaps not as large as a mole hill. But the members had never learned the art of stepping high—an art which every Christian ought to learn, and learn not to magnify little difficulties."

"The minister pleaded with the members and tried to reason with them but to no avail. Some one suggested that he preach a sermon suited to the occasion. When the day arrived, the members were all present and also many who were not members. The congregation was large."

"The minister preached the usual way. After making the announcement he read his text from Hosea, fourth chapter, seventeenth verse: 'Ephraim is joined to idols; let him alone.' Then he closed the Bible, walked slowly out of the church without speaking a word to anyone. If a ball from a celestial world had fallen, the effect upon the congregation would not have been more marvelous. The trouble, like a will-o'-the-wisp, had vanished. Peace was restored."

DECIDES TO BE A LIVE ONE

Young Man Comes Back

One of our young men sure has come to the front in short order, and his friends are at a loss to understand his untiring energy and ability to work and get results, where only a few weeks before he seemed to be all run down and almost a nervous wreck.

Questioned by a curious friend as to the cause of the sudden change, he said: "I sure was in bad shape and no one knew it better than I did. It had my goat for fair. I was all in and my nerves shot to pieces with worry and sleepless nights. One day I overheard a customer telling what Phosphated Iron had done for him and I could not get a supply quick enough."

"That's the whole story, just Phosphated Iron. My poor tired, overworked nerves just seemed to be Phosphated, the way they took hold of it, and say what a relief. I felt like a new man in the morning feeling like a two-year-old. Believe me, I had some appetite too, my weight increased rapidly, my face filled out and had the color of perfect health that only goes with pure blood, well fed with iron."

"You can bet I am strong for Phosphated Iron. Everyone who tries it is a booster."

"Do you know even the doctors are prescribing it; trust them to get next to a good thing."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

THE BROADSIDE

BROTHER MERCHANT:—

In recent years Merchants have been turning more and more to the Broadside. That is a large sheet of heavy paper, printed on one side containing cuts and text.

Two merchants tried it a short time ago.

One got NO results.

The other sold \$30,000 worth of goods.

The answer to the difference in the pulling power of these two Broad-sides was found when they were laid down side by side on a table.

The one that GOT results caught the eye at once. The person who made the test forgot all about the other broad-side and read the \$30,000 one through from end to end. It contained a number of small cuts showing what the merchant had for sale. Under each was a splendid little description, with price of the article. In some cases it told exactly what the article could be used for—and suggested new uses. It put IDEAS into the heads of the readers. It told them uses for every day articles that had never occurred to them before.

The other broadside contained cuts. They were slapped in any old way. There was not a single new idea—not a suggestion—nothing to catch the eye—nothing to hold the attention.

Both of these merchants knew THEIR business—but only one of those printers knew HIS business.

When you get out your next Broadside will you let us lay it out for you and give you our ideas as to how to make it pull for you?

ECZEMA VANISHES IN A FEW DAYS

Mighty Powerful Antiseptic Stops Itching Instantly and by Its Use Ulcers, Boils, Abscesses are Quickly Healed. Is Guaranteed.

20th Century Liniment Proves a Wonder Worker in All Skin Diseases.

Tens of thousands of people now know that 20th Century Liniment has no equal in the treatment of Neuritis, Lumbago, Sciatica, Rheumatism, etc. and we want them to know that 20th Century Liniment besides being one of the most powerful of antiseptics capable of destroying the most pernicious germs and the poisons caused by them is also a marvelous healing agent.

One application, for instance, stops the itching of eczema and a few applications causes the eruptions to dry

up, scale off and completely disappear. It is equally effective on barber's itch, scald head or other skin troubles.

There is nothing injurious in 20th Century Liniment. It contains such well known antiseptics as Camphor, Menthol, Iodine (in non-colorable form), Thymol, and many other ingredients prescribed by the highest medical authorities in the land. If you don't get quick relief return the bottle and get your money back. What this truly wonderful antiseptic has done for others it can do for you.

T. J. Evans' Pharmacy can supply you.

PILE SUFFERERS! CLEVER OHIO CHEMIST SAYS THIS GREAT PRESCRIPTION TAKEN INTERNALLY HAS NEVER FAILED

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that so-called external remedies applied or inserted into the rectum cannot cure piles and that the best only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first allays all inflammation and then by direct contact with

the source of the trouble, causes them to heal and disappear forever.

It is positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operated on. Truly wonderful results have been accomplished.

The nature of this amazing discovery does not warrant a cent of anyone's money unless Miro Pile Remedy decisively cures even in the worst cases and he has instructed druggists all over the country to guarantee it in every case of hemorrhoids or protruding piles.

IMPORTANT: What is known as "piling" piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Remedy has been prepared as in such cases it is not necessary to take the internal prescription.

For sale by T. J. Evans, Pharmacist.

THOUGHT "V" WAS RED PROPAGANDA

Victory Loan Poster Rouses Anger of Townspeople Before They Knew Its Meaning.

In one Ohio town not far from Newark it is evident that the people are not enthusiastic over the idea of a change to Bolshevik form of government.

It is stated that the representatives of the Kiwanis club had placed late one evening, or possibly it was early in the morning, a quantity of the new red posters showing the blue "V," as representing the fifth, or Victory-Liberty loan.

When the townspeople awoke in the morning and found these posters everywhere the report was started that they represented Bolshevik propaganda, and the angered citizens proceeded to tear them down wherever possible and to destroy those where it was difficult to remove them.

Of course when it developed that the Kiwanis club had hung posters to advertise the new Liberty loan, a laugh went up, mingled with regret that so worthy, patriotic a purpose had been interfered with, but it is probable that the advertisement was even more forcible in the way in which it was done.

All over Newark the same posters call to the mind the coming loan. The opening gun of the campaign will be fired on April 21. There has been a great demand for these posters. The supply was exhausted before the people were furnished with all they desired. An effort has been made to get an additional supply, but it is doubtful whether any more will be secured.

NOT THE ONLY ONE

There Are Other Newark People Similarly Situated.

Can there be any stronger proof offered than the evidence of Newark residents? After you have read the following, quietly answer the question: Charles E. Walton, 129 Fleek Ave., Newark, says: "I was a barber when I had trouble with my kidneys, caused from being on my feet so much during the long hours. One day, while shaving a customer, shooting pains caught me every little while and it took me nearly an hour to finish the job. Every little while I made sharp pains to grip me across my back. I couldn't raise a chair from the floor and I couldn't have to shove it along the best way could get it where I wanted it. I got so bad I was afraid to walk across the street for fear of falling. My kidneys were in a terrible bad way and sometimes the kidney secretions contained sediment and were too frequent in passage. Dizzy spells came over me and everything turned black before me. I tried all kinds of medicines, but nothing did me a particle of good until I began using Doan's Kidney Pills, which I bought from A. F. Crayton & Co's Drug Store. After using them for a couple of weeks, every symptom of the trouble disappeared and I have been fine ever since." See at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Adv.)

Readers' Viewpoint

Daylight Saving: Ed. Advocate:—For years you fellows in the city toiled along a half hour behind the farmers in time and poked fun at them for being in a hurry. But now very suddenly you have advanced two hours and are one and a half hours ahead of the farmers, so far as the clocks are concerned, but as daylight savers you are still about four to six hours behind the farmers. If you will take the trouble you will find the average farmer is using all the daylight available which amounts to about 14 hours at present. Can you show us how he can save any more daylight by turning his clocks ahead 1 1/2 hours? Now the fact of the matter is that a lot of you fellows who are working on a 6 to 8 hour schedule instead of saving daylight are wasting a whole lot of it—and then complaining about the high cost of—wasted time.

In all this agitation over the time question the farmer has received but little consideration either at the hands of the city press or congress. Yet here in Licking county as many, or more people live outside of Newark as in it, and many of them are affected by the change. Here is a farmer's children attending the Newark High school. If the noon recess comes when the factory whistle blows it means their noon lunch at 10 o'clock, after breakfast at 6 a. m. and supper not until 6 or 6:30 p. m. sun time. Do you consider such irregular hours good for the children's health? Either they do that or the farmer must stop his work in the middle of the afternoon and lose 2 or 3 hours of the best part of the day for plowing, cultivating and harvesting and consequently cut down in the production of food. The farmer can't equip his fields with electric lights like your shops and offices, nor is it necessary for the city to have provided all the light that is necessary for the farmer's field work, if he is permitted to use it unhampered by silly laws.

Then there is the dairy farmer who ships milk to the city. Under the old time he had to get up at 4 a. m. to get his cows milked and the milk to the station for the early morning train. Now he has to get up at 2 a. m. to meet the same train. But there is a limit to all things and many dairymen forced to work day and night, and virtually but little more than slaves, are selling their cows, and presently we will hear the city editors lambasting the farmers because the poor babies in the city are starving from a lack of milk.

But is a dollar to a doughnut that not a single advocate of this daylight saving Eastern time, editors included, would go out and work the long hours on a dairy farm, not even here in Licking county.

If history is true this old world has rolled along for probably 6000 years and so far as we know Old Sol never failed to arrive and depart on schedule time, and the world's business has been done largely on that schedule.

Then why should the American congress presume to change the laws of the universe, or attempt to prove itself the creator superior to the Creator? Why should it work well along into Sunday and then finally on the closing day turn the hands of the congressional clock several hours backward in defiance of its own laws?

To some the action of congress borders on the blasphemous. To say the least it was most absurd. Here is our farm who is going to lay to the sun for the moon and his faithful old clock which has not failed him for 30 years, and 525 not 7.55, when Old Sol peeped over the horizon, this morning the same time as the astronomical clock prepared by the scientists, long before the American daylight saving congress was born. WAR SAVINGS STAMPS
The Ohio War Savings committee in this week's bulletin ranks Licking county third in the state for cash sales during the week ending April 3. The sale of W. S. S. in Ohio for the week ending April 3 was for about a year ago. The Licking county sale was \$37,540—making the total in this county so far this year \$162,951.
About 25 more names are ready to be posted upon the courthouse park bulletin board where the names of 123 Licking county soldiers, sailors and marines now appear. Each name represents the purchase or pledge to buy \$500 worth of W. S. S. Each name represents a "Bring 'Em Back" club formed by one or more people out of compliment to the soldier or sailor named.
The W. S. S. committee hopes to see a "Bring 'Em Back" club organized for every man from Licking county who is in the service. If the buyer of 100 W. S. S. does not know the name or address of a soldier or sailor the committee will give a list from which selection may be made.
Dr. W. B. Nye, who was a member of the 1918 \$1000 War Savings society, has just bought 200 W. S. S. of the 1919 issue and honored two Newark soldiers by making them members of the "Bring 'Em Back" club. They are: Joseph D. Shannon of Eighteenth street, member of the 332nd infantry in Italy; and Herbert M. Huffman of Boylston

avenue, member of Company I, 18th infantry, A. E. F.
Mrs. Leota Richardson, 118 Union street, through her pledge for 200 War Savings stamps, has complimented two Licking county soldiers after whom "Bring 'Em Back" clubs have been named. They are: George L. Schaller, 11 Mahoin street, now with headquarters company, 324th F. A. H., A. E. F., and Corporal Walter L. Thompson, 148 Jefferson street, Battery B, 324th H. F. A., A. E. F.
Charles Williamson of Johnstown, through the purchase of 200 W. S. S., was privileged to name two soldiers for membership in the "Bring 'Em Back" club. Mr. Williamson honored Frank Smith and Herman Wright, whose present addresses are not given.

NEWARK BARGAIN SHOE STORE--27 S. PARK PLACE

ORDINANCE NO. 2883.
By MR. KNAUBER.
Amending Section 3 of ordinance No. 2573, an ordinance regulating the manner of making and repairing house connections to sewers.
Be it ordained by the council of the city of Newark, state of Ohio,
Section 1. That any person, firm, corporation or co-partnership, not an employee of or a contractor for the Director of Public Service, who takes up and relays any portion of a street, sewer or other underground pipe or fills any street, alley, sidewalk or other public ground in the city of Newark, Ohio, without first receiving a license or written permit from the Director of Public Service, authorized by the council of the city of Newark, Ohio, shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be fined not less than ten (\$10.00) dollars and not more than three hundred (\$300.00) dollars.
That Ordinance No. 2536 regulating the taking up and relaying pavements and excavating and refilling in streets and alleys and all ordinances or parts of ordinances inconsistent with the operation of this ordinance be and the same are hereby repealed.
Section 2. That section 3 of Ordinance No. 2573, be and the same is hereby repealed.
Section 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
Passed April 7th, 1919.
R. L. WILLIAMS,
President of Council
Attest—Geo. H. Hamilton,
Clerk of Council
Approved by the Mayor this 8th day of April 1919.
H. A. ATHERTON,
Mayor.

ORDINANCE NO. 2882.
By MR. KNAUBER.
Change Name of Camp Street to Camp Alley.
Whereas, A petition has been filed with the Council of the City of Newark, State of Ohio, praying for the narrowing of Camp street, between the first alley west of Bowers avenue and a proposed alley 153 1/2 feet east of North Williams Street, by vacating a strip of ground Nine (9) feet wide and 292 (292) feet long on the south side and a strip of ground Fifteen (15) feet wide and Two Hundred and Ninety-two (292) feet long on the North side of said Camp street, and
Whereas, The petition praying for said narrowing of Camp Street is signed by all of the property owners abutting on Camp Street, and
Whereas, The narrowing of Camp street will convert it into an Alley of the same width of its eastern and western outlets, on Bowers avenue and North Williams Street, and
Whereas, The Council is satisfied that there is good cause for such change of name, that it will not be detrimental to the general interest, and ought to be made, now therefore
Be it Ordained by the Council of the City of Newark, State of Ohio,
Section 1. That that portion of a street between the first alley west of Bowers Avenue and a proposed alley One Hundred and fifty-three and one-half (153 1/2) feet East of North Williams Street, and heretofore designated as Camp Street, be and is hereby designated as Camp Alley.
Section 2. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

SEVEN SONS OF MERCURY ENTERED IN FIVE-HUNDRED-MILE DASH FOR \$50,000

Three Indianapolis 500's and a California's best-known driver, will tool the same Stutz that was built for him to drive in the 1915 race at Indianapolis. W. W. Brown is making his first start in one of the Hoosier events with a 24-valve Hudson. Brown was entered in the 1915 event with a DuChesneau, but was not able to qualify.
Natural aptitude to understand an internal combustion engine made a star racing driver of Ralph Murford, who will drive a Frontenac. Murford comes from a little town near Portland, Me. From his earliest days he was fascinated by engines. Murford started driving for the Loring factory when it was located in Plattsburgh, N. Y.
Entries for the race do not close until May 1, and the next 30 days will see all the boys getting their names down on the dotted line drawn by the lure of \$50,000 in cash and the honor that goes with winning or placing at Indianapolis.

Jean Chassagne, holder of the world's hour record, will pilot one of the Sunbeam entries. Chassagne has recently been released by the French government, which he represented in the acceptance of Sunbeam aviation engines at Wolverhampton since the start of the war. Clifford Durant, Pacific coast champion and winner of the recent Santa Monica race, was the first to enter and will pilot the Chevrolet, which he has been using in the Western events. Eddie Pullen, the only American to win an American grand prize event, with a car made in this country, will be Durant's relief driver. Earl Cooper, veteran of many races, who has participated in

of Ohio there shall be issued seventeen coupon bonds numbered consecutively from one to seventeen inclusive, in the aggregate sum of \$17,000.00 bearing date of April 1, 1919 and payable at the office of the Sinking Fund Trustees of the City of Newark, Ohio. The bonds shall be issued in the following denominations: Seventeen bonds in the denomination of \$1,000.00 each.
Section 2. The said bonds shall mature and become due and payable as follows: \$1,000.00 on first day of April, 1920 and \$2,000.00 on first day of April each year thereafter until all are paid.
Section 3. Said bonds shall draw interest at the rate of five per cent per annum, payable semi-annually on the first day of February and August of each year, for which purpose proper interest coupons shall be annexed and made a part of said bonds. The faith and credit of the City of Newark and the City Auditor of said city, for the State of Ohio is hereby pledged for the prompt payment of the interest and the principal of said bonds.
Section 4. Said bonds shall express upon their face the purpose for which they are issued and that they are issued and delivered under the direction of the Finance Committee of the Council and the City Auditor of said city, and they shall be signed by the Mayor and City Auditor of the City of Newark, and the interest coupons attached to said bonds shall be executed by the City Auditor with his signature attached thereto or he shall have his signature printed or lithographed thereon.
Section 5. Said bonds shall be first offered at par and accrued interest to the trustees of the sinking fund of the City of Newark, Ohio, in their official capacity; and if said sinking fund trustees refuse to take any or all of said bonds at par and accrued interest, then said bonds not so taken shall be offered at par and accrued interest to the Commissioners of the Sinking Fund of the City School District; and if said Commissioners refuse to take any or all of said bonds at par and accrued interest, then said bonds not so taken shall be offered for public sale and sold in the manner provided by law, but not for less than their par value and accrued interest.
Section 6. The proceeds from the sale of said bonds except premium and accrued interest shall be deposited in the City Treasury to the credit of the City's portion of Street Improvement Fund, and shall be disbursed upon proper vouchers for the purpose of paying the cost and expense of said improvements, and for no other purpose, and the premium and accrued interest on said bonds when the same become due, and that the said City Auditor shall compute and ascertain the rate of levy necessary to provide therefor in each year it is certified and in addition to all other levies.
Section 7. That for the purpose of paying the interest on the bonds here authorized and providing a sinking fund for their redemption at maturity and the Trustees of the Sinking Fund of the City of Newark, Ohio, shall annually certify to the Auditor of Licking county the amount necessary to be levied in each year for the Sinking Fund purposes, so that the interest on said bonds shall be paid as the same accrues, and to discharge the principal of said bonds when the same become due, and that the said County Auditor shall compute and ascertain the rate of levy necessary to provide therefor in each year it is certified and in addition to all other levies.
Section 8. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

fourths of all the members elected thereto concurring.
Section 1. That it is necessary to improve the portion of West Main street to the north line of Camp Alley by paving the roadway thereof in accordance with the plans, specifications, estimates and profiles of the proposed improvement prepared by the Civil Engineer, now on file in the office of the Director of Public Service, which are hereby approved and which shall be open to the inspection of all persons interested.
Section 2. The material used in the construction of said improvement shall be asphalt, brick, stone, cement or other material as shall hereafter be determined.
Section 3. That the grade of said street shall be as follows: The grade of the curb shall be as follows: Commencing at the north line of West Main street at an elevation of 119.64 feet above the established datum of the City of Newark, Ohio, thence north by a straight grade to the north line of the first alley north of West Main street at an elevation of 116.1 feet, thence north by straight grade to the north line of the second alley north of West Main street at an elevation of 114.55 feet, thence north by a level grade to the north line of lot No. 4614, thence north by a straight grade to the north line of lot No. 4611 at an elevation of 115.3 feet, thence north by a straight grade to the north line of Camp Alley at an elevation of 117.6 feet.
The grade of the center line of the street shall be parallel to and one-tenth of a foot lower than that described as the elevation of the curbs, as shown on the plans and profiles now on file in the office of the Director of Public Service.
Section 4. That the whole cost of said improvement, less one-fifth thereof, and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands to wit: All lots and lands bounding and abutting upon the proposed improvement which said lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of the deferred installments of assessments, and all other necessary expenses.
Section 5. That the assessments so to be levied shall be paid in twenty (20) semi-annual installments with interest on the deferred payments at 5 per cent per annum, provided that the owner of any property assessed may at his option pay such assessments in cash within thirty days after the date of the passing of the assessing ordinance to the City Treasurer; in which case said cash assessments shall not include any item of interest upon bonds to be issued in anticipation of the deferred installments of assessments.
Section 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in the amount equal thereto.
Section 7. That the remainder of the entire cost of said improvement not specially assessed, including cost of intersections and the damages awarded any owner of adjoining lands and in anticipation of the assessing ordinance, of any such award shall be paid by the issuance of bonds in the manner provided by law.
Section 8. This resolution shall take effect and be in force from and after its passage and legal publication.

ROAD NOTICE OF VIEW AND HEARING.
Whereas, John A. Hughes and others have petitioned the County Commissioners of Licking county, Ohio, for the change of location of a public road, to wit: Commencing on the Mary Ann Furnace and Wilkins Cornet road at the line between Jacob Thompson and John A. Hughes, and running north about 94 rods to the Rocky Fork creek and thence through the lands owned by Oren Evans for about 25 or 30 rods to the Rocky Fork road.
Therefore, the said County Commissioners, on the 24th day of April at 10 o'clock a. m. central time, will meet at the commencing point of said proposed improvement to view and go over the route for the purpose of determining its public importance.
They will also meet on the 1st day of May, 1919, at 10 o'clock a. m. for final hearing at the office of said County Commissioners for all persons whose interests would be affected by said improvement and for granting or refusing the improvement.
FRED S. WILSON,
County Auditor.

ROAD NOTICE OF VIEW AND HEARING.
Whereas, P. M. Brill and others have petitioned the County Commissioners of Licking county, Ohio, for the change of location of a road commencing near the barn of Ira Varner on the Black Hand and Gratiot road, leaving the present road in a southerly direction on the lands of Scott Romine and Ross Varner so as to wind around the hill and eliminate the present steep grade, returning to the present road in front of the Sarah Cheek house by the most practical course.
Therefore, the said County Commissioners will on the 22nd day of April, 1919, at 10 o'clock a. m. (Central time) meet at the commencing point of said proposed improvement to view and go over the route for the purpose of determining its public importance.
They will also meet on the 29th day of April, 1919, at 10 o'clock a. m. for final hearing at the office of said County Commissioners, for all persons whose interests would be affected by said improvement, and for granting or refusing the improvement.
FRED S. WILSON,
County Auditor.

SPRAYS AND SPRAYING MATERIALS

NOW IS THE TIME TO MAKE WAR ON INSECTS AND FUNGI

"A regular spraying program is now considered a necessity by every successful orchardist, the expense of which, treated as insurance, can no more be escaped than the outlay for cultivation, manures or pruning. The beginner in orcharding and the average farmer with a small orchard is quite dependent on simple, yet effective, programs for treatment. He needs to know what combination of sprays can best be made, and exactly when these sprays can best be applied to obtain the maximum of results with a minimum outlay of effort and money.—Come in and get one of our spraying charts. They are free."

"BLACK LEAF 40"

Is a spraying solution we can highly recommend. "Black Leaf 40" is a concentrated solution of nicotine sulphate and is guaranteed to contain not less than 40 per cent nicotine by weight. It is perfectly soluble in cold water; does not clog the nozzle nor corrode the spray outfit; can be combined and applied with Lime Sulphur, Bordeaux, Pyrox, Arsenate Lead, and such sprays. It is recommended by state and government experts.

WHAT IT IS USED FOR

"Black Leaf 40" is used as a safe and effective spray for plant lice, aphids, chrips, leaf hoppers and similar insect pests in the truck garden, orchard, flower garden, vineyard, etc. AS A PREVENTATIVE OF GREEN APHIS, "BLACK LEAF 40" SHOULD FIRST BE USED IN DORMANT SPRAY.

We carry a large and complete stock in the following sized packages: 14 lbs., 12 lbs., 10 lbs., and 5 lbs.

WE ALSO HAVE A FRESH SUPPLY OF

Lime Sulphur, Dry and Liquid; Arsenate Lead, Arsenate Lead Paste, Arsenate of Lead Powder, Calcium Arsenate Powder.

Gardeners! Gardeners! Can supply you with complete information as to the use of these valuable sprays. You can have one for the asking.

You will find our stock of MYERS' SPRAY PUMPS, BARREL and BUCKET PUMPS and Spraying Outfits worthy of your investigation.

BIG IMPROVEMENTS AT BUCKEYE LAKE NOW UNDER WAY

Work is now under way at Buckeye Lake Park and Summerland Beach both of which are controlled and owned respectively by The Buckeye Lake Park company, which when completed, will add many new and attractive features, at a cost of nearly \$75,000.

At the Park a new ride is being known as "The Buckeye Lake Racer." This will be among the largest and highest rides of the kind in the state with many pleasant slides.

This ride will be managed by Messrs. Elbert and Shindler, who are park men of many years experience.

Another ride known as "The Whip" will be installed. A vaudeville theatre will be of the new attractions at the park this year.

At Summerland Beach the hotel is being remodeled and a large bath house is being equipped for giving any character of bath that may be desirable or necessary to produce the most beneficial results. Turkish, Russian dry hot air baths, etc., and professional massage treatment.

Mr. Frank H. Bates, late of Cambridge Springs, Pa., and Fountain Park will be in charge and his work as a professional park season will open May 25th.

The spring fishing season is now on, and the Jol Fisher Boatline company has many boats in service.

The lake has the normal spring stage of water.

The hotels and some of the restaurants are open at the park and the garage and service station are in operation.

The Bates hotel and bath house at Summerland Beach will be in operation about May 1st.

NAVY GETS RECRUIT.

John S. ... 16-year-old son of ... a well known ... enlisted in the U. S. Navy ...

... for final examination which he readily passed. Word has been received by his parents that he is now at Hampton Roads, Va. About one year ago, David endeavored to become a "man-of-war" but was told by the recruiting officer that on account of his years, he would not be accepted, but not to allow his love of country to become cold, as he would be afforded an opportunity to serve his country in this capacity, and upon his being accepted at this time.

The parish house of the West End Presbyterian church of New York is to be fitted out with rest rooms for men, as well as women employees, and the street peddlers for use between runs. This is an opposition to a saloon that has been located here for many years. The rest room is the outcome of the active interest taken in the problem by Mrs. B. B. Thompson, captain of the Women's Police Reserve of the Thirty-sixth precinct.

KIDNEYS WEAKENING? BETTER LOOK-OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you feel that you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1606 the government of the Netherlands granted a special charter authorizing its sale.

The good housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. Their use restores strength and is responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

LA-MAY FACE POWDER DOES NOT CONTAIN ANY RICE POWDER

Now you can use a pure face powder that is guaranteed not to injure the most delicate baby skin. It will not cause enlarged pores, blackheads and irritations. And it really stays on better than any other face powder. It does not contain white lead or starchy rice powder (poudre de riz) to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. Because it is pure and because it stays on so well this La-may powder (French Poudre L'Amee) is now used by over a million American women. The large size is only fifty cents and the trial size is twenty-five cents. Remember, La-may is guaranteed absolutely pure. Five thousand dollars reward is offered any chemist who finds it contains any white lead or rice powder. Refuse substitutes. Your common sense will tell you that when you are offered a substitute it is sure to be a demonstrator trying to sell an inferior powder that pays a big commission. When you use this absolutely pure La-may and see how splendidly it beautifies your complexion, you will understand why it so quickly became the most popular beauty powder sold in New York. Save this notice. La-may rouge is also pure.

GIRLS! TRY IT!
HAVE THICK, WAVY,
BEAUTIFUL HAIR

Every particle of dandruff disappears and hair stops coming out.

Draw a moist cloth through hair and double its beauty at once.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandierine hair cleanse." Just try this—draw a cloth with a little Dandierine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandierine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely invest a few cents in a bottle of Dandierine's hair cleanser at any drug store or toilet counter, and just try it.

Save your hair! Beauty! You will say this was the best money you ever spent.—Adv.

GRANVILLE

(Special to the Advocate.)
Granville, April 10.—At the meeting of the Community Federation of Granville townships held Wednesday afternoon in the Municipal building, several recommendations of the federation council were voted upon and adopted, and matters began to assume practical form for work. The library committee submitted plans for a big drive to be launched during the week of April 24th, when the Granville "Thursdays" will stage a first class play in the Opera House, "A Pair of Spectacles," the proceeds to be devoted exclusively to the library fund.

The chairman of the Council of National Defense presented the matter of the children's gardens, so successfully carried on last year as a war measure, and said that the balance of the gardening fund, \$15.00 had been voted by the organization into the federation treasury. The vote to devote this sum toward prizes to be offered next fall at a school fair, was unanimous. A letter from the state headquarters of the women's committee, read at the meeting stated that all local units of the Council of Defense are being urged to carry on their work until they receive word from the state, and in the meanwhile to turn their interest toward local problems. They are asked to consider the possibility of turning their organizations into still more broadly representative bodies to include delegates of men's organizations, schools, churches, social agencies, and public officials and to plan jointly for:

Improvement of buildings, grounds and streets.
Community health and sanitation.
General welfare.

Recreation and social activity.
The motion that the federation meet on the second Tuesday in each month in the Municipal building, carried unanimously, and the next meeting will occur on Tuesday, May 13.

Mr. and Mrs. F. E. Collins of Cincinnati motored to Granville a week ago accompanied by their daughter, Miss Elizabeth Collins, a student in Shepardson college.

Mrs. Millard Brelsford returned Wednesday afternoon from a week's sojourn in Columbus at the Hotel Seneca where Dr. Brelsford is living while engaged in directing the Ohio branch of the Baptist Victory campaign.

The eight-ring circus given under the auspices of the Denison Y. M. C. A. is ready for presentation Friday (tomorrow) evening in the Opera House at 8 o'clock. Seven fraternities and the Commons club will each stage a clever stunt, and the prize provided, will be awarded the fraternity or club which the audience itself judges, to have shown the cleverest scene. This so-called circus is the worthy successor of the time-honored Long Dandy Races, which so long held first place among local entertainments.

Mr. and Mrs. James A. Huston have been spending a few days in Chicago this week.

The Granville Mothers' club has specially invited mothers of all children school to be present at its meeting Monday evening in the Presbyterian church when Superintendent A. E. operation of Parents and Teachers.

ABOUT PEOPLE

Miss Mildred Dickey has resigned her position at the J. J. Carroll store.

Mrs. Binsley and daughter of Thornville were Newark visitors on Wednesday.

Constable C. L. Moore was in Bennington township Wednesday on business for Justice Horton's court.

Mrs. Charles McNeal of Columbus is the guest of her mother, Mrs. Andrew Trevis in Hudson avenue.

Mr. and Mrs. Dick Curry returned last evening from an automobile trip through Northwestern West Virginia. Rev. Mr. and Mrs. W. F. Harbert, who were called to Parkersburg, W. Va. Monday, by the seriousness of illness of their brother-in-law, Alex Gibson, returned home Wednesday.

Mrs. Fred Schoenberg and little son of Fairfield avenue are spending a few days with relatives at Marion, W. Va.

Prosecuting Attorney Charles L. Flory and attorney Frank E. Slabouch are transacting business in Columbus today.

The Unseen World.

and so-called "spiritualism" offers its kind of proofs. The belief of the Christian is based more on "faith than sight."

The church and general Christian culture direct our thoughts and sentiments to the facts of the "unseen world." So far as we know there are no facts of science, physical or mental science, that positively reveal the "unseen world." There are certain cults, esoteric, so-called, that make specialities of allusions to the "unseen world."

Add a tablespoonful of vinegar to the water when cooking corn on the cob. This whitens the corn and makes it tender.

SOCIAL AFFAIRS

The K. of P. Dandierine club will give a poverty ball Friday evening in the K. of P. hall in East Main street. Dancing will be from 8:45 to 11:45 (new time.)

The First Presbyterian church C. E. society will hold its monthly business meeting this evening at the home of G. H. Long, 178 West Locust street at 8 p. m. (Eastern time.)

The Bachelors will entertain with a dancing party on Tuesday evening, April 22, at Assembly hall.

Tuesday being the twelfth birthday anniversary of Master Carl Penick, about thirty-five friends gathered at his home in the Granville road and tendered him a surprise. The evening was spent in various games and a musical program was furnished throughout the evening. A three course dinner was served at 8 o'clock to the guests.

On Tuesday evening Madura Howard of Pine street entertained with a kitchen shower in honor of Mae Brookover whose marriage to Curtis Messick will take place tonight. The evening was spent in music, games and dancing. Luncheon was served to the following guests: Misses Dorothy Crouse, Dorothy Carter, Verna Allison, Edith Anderson, Alma Boller, Indus Hall, Glenora Beckman, Helen Lytle, Charlotte Reynard, Mae Brookover, Mrs. Alesman and the hostess. The bride-elect received many useful articles and the guests departed wishing her much success and happiness in her new home.

Last Thursday evening Mae Brookover entertained a number of her friends at the home of Thomas Messick in Granville. During the evening Miss Brookover announced her engagement to Curtis Messick, a farmer of Union township. The marriage will take place in Granville today and the couple will be at home with Mr. Messick's people of Union township immediately after their marriage.

Layman—Harber.
The marriage of Miss Nina Ruth Harber and Mr. Gordon D. Layman took place at the parsonage of the Tenth Street Baptist church, Thursday morning at 11 o'clock. The service was read by Rev. W. F. Harbert.

A wedding dinner was served at the Harber home in Jefferson street. The bridegroom is the son of D. O. Layman, 100 Western avenue. He is employed as a butcher.

No End to Muskrats.

A sufficient number of muskrats to meet demands for their fur are trapped from marshes and swamps that are, for the most part, unprotected. Millions of skins being taken each year. So long as the natural breeding places remain undisturbed and reasonably closed seasons are maintained there is little likelihood of the numbers of the animals being depleted, according to biologists of the United States department of agriculture. With adequate protection in the breeding season and with the present habitat available, from 10,000,000 to 12,000,000 pelts can be taken in North America annually without depletion of the supply.

Engraver's Tools.

A "burin" is an engraver's tool of tempered steel, with a lozenge-shaped point, fixed in a handle, the end of which, fixed in the hands, is rounded at the top. Pushed forward by the hand in any direction, it cuts a shallow or deep furrow, according to the pressure exerted. When, as in etching, bitten lines, or lines made with the dry-point, are imperfect or weak, the burin is used to repair or strengthen them. The word burin is also used to describe the manner or style of execution of an engraver; as soft burin; brilliant burin, etc.

3 CHRONIC AILMENTS
STOPPED BY
INTERNAL BATHS

Mrs. Joseph Rosenbaum, 5017 Drexel Road, Chicago, Ill., writes Tyrrell's Hygienic Institute of New York, as follows: "For many years I was a sufferer from Rheumatism, Neuralgia and Constipation, and after trying many remedies I purchased your 'J. B. L. Cascade.' Have been using it ten or twelve years and find it most beneficial. All the above ailments have disappeared and I now enjoy excellent health."

You can help Nature in Nature's most effectual way, by internal bathing with the "J. B. L. Cascade," and in an easy, non-habit forming manner keep the intestine as sweet and clean as Nature demands it to be for perfect health. Over half a million keen, bright, healthy Americans testify to its results.

It is the invention of Chas. A. Tyrrell, M. D., of New York, a specialist on internal bathing for 25 years, and is now being shown and explained by the Hudson Avenue pharmacy, 11 L. Williams, proprietor, 322 Hudson Avenue, corner Oak street, Newark, N. J. They will be glad to give you free on request a booklet by Dr. Tyrrell, "Why Man of Today is Only 50% Efficient," which is most interesting, and will tell you facts about yourself that you have never before realized.

Secretary Glass has made the official announcement of these terms.

With the last payment, of course, is due all accrued interest on deferred installments. And payment can be completed on any of the installment dates with the accrued interest to that date.

Could any salesman ask for anything easier to offer in the way of terms? The first real stiff payment doesn't come until August and the last payment is set way off there in November.

BOY "DROPPED INTO MONEY"

New York Youngster Found Floors of Deserted House Fairly Strewn With Bank Notes.

A coal chute may be a prosaic substitute for Aladdin's lamp, but one found by a New York boy delivered the goods as satisfactorily as ever did the old oil burner of "Arabian Nights" fame, observes the Kansas City Star. Vincent Mastaglio had been dazing his playmates with great rolls of \$10 bank notes and pockets full of jewelry for several days when the police learned of his suddenly acquired riches and took him into juvenile court, where he told of discovering his treasure trove.

He was playing in a New York East side street the other day when he fell through a coal hole. There wasn't much in the cellar to excite his interest, so he tried the upper floors of the house, which he found to be deserted. There, he told the police, he found rooms with their floors strewn with money; \$5 and \$10 bills had been wadded and thrown in every corner, and jewelry littered the dressing tables.

Investigation by the police verified the boy's statement. They learned that the house had been occupied by Mrs. James Sandham, a reclusive ninety years old, who had died a few days before. The boy was the first person to enter the house after the woman had been removed to a hospital, and the money, thought to be rents from her tenants, had lain where she had thrown it on the floor as she received it.

WHITE TRIBE IN CHINA HILLS

Are Said to Resemble Anglo-Saxons, and Are Noted for Their Fierceness.

A tribe of white men whose chief characteristic is their ferocious courage, has been found in the western mountains of China by Dr. Joseph Beech, president of the West China Union university, at Changta. Doctor Beech, who recently arrived in this country to aid in the Methodist Episcopal centenary campaign for \$85,000,000 for missionary work at home and abroad, tells also of another race of white men, who greatly resemble Bohemians, to be found in the great hills.

"There are 40 or 50 different tribes," Doctor Beech said, "all speaking different languages and all different in physical appearance in the mountains of west and southwest Szechuen. On our maps these tribes are called a part of China, but they are really independent, and have fought the Chinese from time immemorial."

"This tribe, resembling Anglo-Saxons, lives in the district of Sung Pan. It is described to me as consisting of large men whose bravery is considered a marvel by the Chinese. 'They never run away,' a Chinese friend told me. 'They love to fight.'"

Taking Out the Squirt.
Relief is in sight for the man who, hurrying through his breakfast to get downtown, has had to run for the car with one eye blinded by a generous stream of very acrid juice which sprang out of his grape fruit as he applied an overabundance of pressure. Department of agriculture experts have taken out the squirt, and incidentally some of the other qualities of the grape fruit which prevented it from becoming as popular as it might otherwise have been. The new fruit has been produced by crossing the grape fruit with the tangerine orange and it is called the tangelo. It is described as being not nearly so sharp in taste as the grape fruit and as resembling a ripe orange. It requires no sugar and the pulp is so tender that it may be removed with a spoon without having previously cut the segments.

Recovered Pocket Piece.
An Odd Fellow's pocket piece, with an inscription showing that its owner had belonged to Keystone lodge, in Bethlehem, Pa., was picked up on a battlefield in France and eventually came into the possession of C. L. Fox of Houlton, Me. An article about the little aluminum disc was published in the Houlton Times and a copy was sent to the lodge in Pennsylvania. C. H. Fogg of the Times, later received a letter from the secretary of Keystone lodge saying that the pocket piece belongs to Walter Schonenberger of Bethlehem, and that if Mr. Fox would send the disc to him he would see that Mr. Schonenberger got it after he returned from France.

To Reorganize Scarlet Riders.
Canada's scarlet riders, the Royal Northwest mounted police, who left the dominion to distinguish themselves further on the battle fields of France, are to be reorganized on a pre-war basis, according to an announcement by government officials. Squadrons of the famous riders who for years have patrolled the prairies, mountains, forests and arctic wastes of Canada, will be returned from overseas and permitted to rejoin their old force, which will be recruited to twelve hundred men.

Trade With South America.
South America looks to us for so many manufactured articles it once purchased abroad that in the last two years our trade with that continent has more than doubled. And we are returning the compliment by sending southward heavy orders for raw materials.

Well-Preserved Stakes.
Some of the piles in use in Amsterdam are three to four hundred years old. That part which is not in the ground in salt water is often bored by a pile worm near the surface, but is preserved by driving in nails with very large heads, so as to give the pile an iron coating. This coating is then transformed by the water into a layer of rust, which protects the wood from the pile worm. This process must be repeated every fifteen years.

It is best to roast or pan chicken with breast down. It will be more juicy.

THE MARKETS

Cleveland Produce.

Cleveland, April 10.—Butter: creamery in tubs, extra 66 1/2 to 67; extra 65 1/2 to 66; firsts 64 1/2 to 65; fancy dairy 45 to 47; packing stock 33.

Wall Street.

New York, April 10.—Motor shares and allied specialties overshadowed all other issues at the opening of today's stock market. General Motors, Stutz, Chandler and Kelly Springfield rose 1 to 2 1/2 points. Pronounced strength was shown by various industrial, equipment and specialties, particularly industrial alcohol, American International corporation, Baldwin locomotive, Midvale steel, American Petroleum, and common and preferred, associated dry goods and Burns Brothers. Oils were irregular, also shipments and tobaccos. U. S. Steel was barely steady at the outset but strengthened later. Advance. Stutz rose 1 1/2 and several of the low priced issues 1 to 2 points. Atlantic Gulf was strongest of the shipments, tobaccos pulled and gas shares were distinctly strong with several of the food issues. A slight reaction in Liberty Bonds was the only feature of that branch of the list.

Chicago Grain Produce.

Chicago, April 10.—Nearly deliveries of corn showed comparative firmness today owing to the fact that overnight purchases to arrive were small inasmuch as yesterday's break in prices had carried the market below a level at which \$1.50 per bushel at loading stations could be paid. Opening prices, which ranged from 1-4c off to 3-8c advance with May 1.56 5-8 and July 1.50 1-2 to 1.51 were followed by a moderate sag all around and then something of a rally. Adverse weather for seedling tended to steady oats. After opening, unchanged to 1-2c higher with May 67c to 67 1-8c, the market held within narrow limits. Provisions lacked support. Bearish sentiment as to hogs and corn was responsible.

Chicago Produce.

Chicago, April 10.—Potatoes: steady. receipts 62 cars; northern sacked and bulk whites, U. S. grade No. 1, 1.30 to 2.00; western Russets, 2.35 to 2.40; new stock, Florida No. 1, 1.50 per barrel.

Pittsburgh Live Stock.

Pittsburgh, April 10.—Receipts: 1500 head, heavies \$20.50 to \$20.70; heavy yorkers \$20.50 to \$20.60; light yorkers \$19.50 to \$19.75; pigs \$19.00 to \$19.25. Sheep and lambs, receipts 500, lower. Top sheep \$12.75; top lambs \$17.00. Calves, receipts 100, steady. Top \$17.50.

Cincinnati Live Stock.

Cincinnati, April 10.—Hogs: receipts 5900, strong, selected heavy shippers \$20.25; good to choice packers and butchers \$20.25; medium \$19.50 to \$20.50. Cattle, receipts 800, steady. Shippers \$13.75 to \$16.00; butchers steers extra \$14.00 to \$15.50; good to choice \$12.50 to \$14.00; common to fair \$7.00 to \$11.50. Calves, weak, extra \$16.00; fair to good \$13.00 to \$15.75; common and large \$6.00 to \$12.00. Sheep, receipts 100, slow, extra \$12.50 to \$13.00; good to choice \$11.00 to \$12.50; common to fair \$5.00 to \$10.00. Lambs, slow, extra \$15.00 to \$18.50; good to choice \$18.00 to \$18.25; common to fair \$13.00 to \$17.00.

Chicago Live Stock.

Chicago, April 10.—(U. S. Bureau of Markets.)—Hogs: receipts 32,000; market fairly active; mostly 1c lower than yesterday's average. Top, 29.50; bulk of sales, 29.10 to 29.40; heavy weight, 29.30 to 29.35; medium weight, 29.25 to 29.45; light weight, 19.90 to 29.40; light lights, 18.55 to 20.20; sows, 18.50 to 19.75; pigs, 17.50 to 18.75. Cattle: receipts 9,000; beef steers, feeders and calves steady; canners and cutters 1c higher; other stock slow and steady. Heavy beef steers, 11.50 to 20.25; light beef steers, 10.00 to 18.50; butcher cows and heifers, 4.40 to 14.75; stock cows and calves, 5.75 to 10.00. Veal calves, 14.00 to 17.50. Stockers and feeder steers, 8.25 to 15.25. Sheep: receipts 11,000; best handy weight lambs, held 10 to 15c higher. Sheep, steady. Lambs: 84 pounds or less, 18.00 to 19.65; 85 pounds or better, 17.75 to 19.00; culls, 14.00 to 17.75. Ewes: medium and heavy, 12.25 to 15.50; culls and common, 6.00 to 12.25.

Chicago Produce.

Chicago, April 10.—Butter: lower. Creamery, 54 1/2 to 55. Eggs: higher, receipts 37,774 cases. Firsts, 29 1/4 to 30; ordinary firsts, 28 1/4 to 29; mark cases included, 28 1/2 to 29 1/2; storage packed firsts, 31 1/4 to 32. Poultry: alive, unchanged.

Simpson Hospice.

The Simpson is a famous Alpine mountain in Switzerland, having a height of over 11,000 feet. The Simpson road, one of the greatest engineering feats of modern times, leads over a shoulder of this mountain (Simpson pass), at a height of over 6,000 feet. This road was begun in 1800 by Napoleon, and was completed in 1806. It was from 25 to 30 feet wide, and nowhere has an incline greater than 1 in 12. It carries across 611 bridges, over numerous gullies, cut out of natural rock, or built of solid masonry and through great tunnels. Close to the highest point is the "New Hospice," which is one of the 29 edifices on this route for shelter of travelers. It was once used as a prison for famous political prisoners of France and Italy. It is occupied by an order of monks whose life is devoted to giving succor to travelers in distress.

Turkey Ranches.

Exclusive turkey ranches are found in the unsettled foothill regions of California and in parts of Arizona and other western states, where 1,000 or more turkeys are raised each season. The establishments are located where the range is unlimited and the natural food of the turkey, such as grasshoppers and other insects, green vegetables and the seeds of various weeds and grasses, is abundant. Advantage also is taken on these ranches of the turkey's relish for acorns, and where these are plentiful but little grain need be used for fattening in the fall. The large flocks of turkeys are herded during the day by men either on foot or on horseback, and by dogs especially trained for the work.

and had been ordered to the United
States and would probably be at sea
when the letter was received in New-
ark. He will undergo an operation for
stomach trouble in one of the military
hospitals in the east.

Mother Wasp's Good Work.
So far as known, only one small in-
sect—a wasp of the spheex family—
among the millions of creatures belong-
ing to a lower order than man, has
ever employed the aid of a tool to ac-
complish a desired result. The mother
wasp of this family digs a tunnel in
the ground, deposits her eggs in it, and
after the wasp has made its tunnel and
deposited the eggs, it finishes its task
by running down pellets of earth, lit-
tle stones, etc., into the mouth of the
tunnel. This is the race habit of these
wasps. It is recorded on undoubted
authority that one inventive mother,
when the mouth of the tunnel was cov-
ered to a level with the rest of the
ground about it, brought a quantity
of fine grains of dirt to the spot, and
picking up a small pebble in her mandibles,
used it as a hammer in pounding them
down with rapid strokes, thus making
the spot as firm and as hard as the
surrounding surface. Then she depart-
ed, brought more dirt, picked up the
pebble again and used it.

An Early Newspaper.
In this day of the omnipresent news-
paper an item of old interest in a col-
ing sale of rare literary survivals is
a copy of one of the earliest newspa-
pers issued, an Italian sheet of four
pages printed in 1562. This was not
many years after the custom started
in Venice by which the news of a
military victory, or some other event
of popular interest, was circulated and
sold for a "gazetta," the smallest Venetian
coin. The sheets were reprinted
in various towns, and the system could
hardly have been operated without pa-
per-sellers like modern newsboys, cry-
ing their wares. The price came down to
us with the newspaper title "Gazette,"
and the 1562 news sheet, which tells
of the official visit of the papal nun-
cio Lippomani to Poland to establish
the inquisition in that country, has sur-
vived the centuries with its pages un-
cut, as if unopened.—Christian Sci-
ence Monitor.

Would Be a Nuisance.
Chairs so mounted that they can be
raised and lowered two feet or more
by the occupants, for use in motion
picture and other theaters, are shown
in Popular Mechanics Magazine. The
advantage of these seats is that they
lift the users high enough to give them
a view of the stage unobstructed by
persons passing to and from in front
of them—a frequent occurrence at the
"movies."

WOMAN GIVES \$25 TO STRICKEN FAMILY

Contributions to the Adams fund
are still rolling in and today when
Manager Fenberg opened his mail one
of the letters contained a check for \$25
from a Newark woman who requested
that her name be withheld. Another
letter had a check for \$10 and request-
ed that the name be withheld.
It is the hope of those interested that
the fund may reach \$500. The benefit
Tuesday at the Alhambra and Auditor-
ium theatre was not as well patronized
as had been anticipated but quite a
neat little sum was realized.
Social clubs have been asked to re-
ceive contributions at the club rooms
and turn the amount over to the fund.
Subscriptions are still being received
at the Auditorium box office and the
Advocate will be glad to receive any
contribution to turn over to Manager
Fenberg.

ARTILLERY SOLDIER BRINGS SOUVENIRS

George Ridenbaugh, of 92 Bremen
street has received many interesting
souvenirs from Floyd Ridenbaugh who
served overseas with the 134th Field
artillery, 37th division.
The display included a shell case,
made in a vase. The carving showed
a floral design with the word
"souvenir." There were a number of
foreign coins, a French cigarette
lighter, and a rosary the latter proba-
bly taken from German dead or a
prisoner.

tributed with this will impart a delicious
flavor to the fish.

RUDDY LOCKS AND COURAGE

Observation of English Writer Is That
the Two Are Generally Found
Together.

"Hanger for pluck" is an old saying
which would seem to be confirmed in
the bestowal of military decorations
for bravery, observes London An-
swers. "It was in the ruined square
of demolished Ypres last Christmas
eve," writes a British officer, "that I
was first impressed by the large num-
ber of red-haired men who were re-
ceiving the military medal.

"Since that afternoon I have noted
the complexion of every officer and
man wearing a military decoration,
and the impression made at Ypres
has been strengthened in consequence.
There must be something in the old
saying, for wherever soldiers are
gathered together there is a red-
haired, beribboned man in the midst
of them.

"Take our most famous fighting di-
vision—the invincible Fifty-first. This
is composed almost entirely of High-
land troops, and the Highlanders are
nearly all full-blooded blonds. Of
course there are dark-haired heroes in
plenty, but nevertheless red hair and
pluck would seem to be synonymous.
Red hair is common among our most
daring airmen, and although I cannot
say how many holders of the Victoria
cross sport ruddy locks I am prepared
to wager that they form a large per-
centage.

"Scientists say that red hair is
caused by a large proportion of iron
in the system, and certainly 'carrots
and freckles' have been worn by men
of iron while doing the work of men
in the devil's own war."

FROM COFFIN TO KITCHEN

Plate Placed on Casket That Held
Body of Louis XIV Found Doing
Duty as Frying Pan.

At the Cluny museum in Paris is a
very interesting relic.

One day a few years ago the cura-
tor of the museum happened to visit
a small restaurant in the suburbs of
Saint Denis, in which the same room
served as a dining room and kitchen.
While he was waiting to be served the
curator was attracted by a frying
pan of unusual appearance that hung
upon the wall. He took it down, care-
fully removed some of the soot with
which it was covered, and made out
part of an inscription. What he
found interested him so much that he
bought the old pan.

When it was cleaned it was found
to bear the arms of France and Na-
varre, surrounded by the chain of St.
Louis and the cord of the Order of
Saint Esprit, and this inscription as
well: "Here lies the magnificent
Prince, King Louis XIV, King of
France and Navarre. Requiescat in
pace."

It was the plate that had been fas-
tened to the coffin of Louis XIV. When
the burial vaults of the royal family
in the cathedral at Saint Denis were
rified by the populace in 1793 it had
been wrenched from the coffin, fitted
with a handle, and turned into a fry-
ing pan. The handle has been re-
moved.

The Warning.

He was nineteen years old and she
was just sixteen. For a long time
they had been saving their money to
get married. When they together had
acquired \$100 they decided that they
had reached the opportune time. So
into Sullivan and to the courthouse for
the needed license they hied.

As they ascended the steps of that
building they met a motley crew com-
ing down the stairway—a discontent-
ed-looking husband, a still more dis-
contented-looking wife and five dilapi-
dated, dirty children. The boy
stopped, turned to stare at the girl
and found that she was staring at him.
Suddenly she laughed and tucking her
hand into his arm turned him around
so that his back was toward the en-
trance of the building. "Let's go back
home, Fred, and wait until we've sav-
ed another hundred dollars," she ad-
vised.—Indianapolis News.

Picking Out Wool Supply.

All the wool found in the world
every year, it made only into clothing
for people living outside the tropics,
and not into horse blankets, carpets,
etc., would provide fourteen ounces
per person. That is enough to make
one lightweight pair of bathing trunks
extending from the waist to the knees.
"Then, uncle," asked Rollo, "where
does the rest of the wool we wear
come from? Our coats and overcoats
and blankets and woolen stockings?"
"That," replied his uncle, "is reworked
wool, or shoddy." "But surely, uncle,"
explained the boy, "we do not wear
shoddy, do we?" "No," said the hon-
est uncle, "you and I do not, but ev-
erybody else does."—The Little Jour-
nal.

Paying War Debts.

There is no uniform rule of action
regarding the payment of war debts.
Some war debts have been entirely
paid off, and others have been greatly
reduced. In 1793, following the Revolu-
tionary war, the public debt of the
United States was \$80,352,634. It was
reduced year by year until 1812, when
it was \$45,209,757. During the war of
1812 it increased until 1816, when it
was \$127,934,933. Then followed a
long period of steady yearly reduction
(1) in 1835 it stood at the nominal
figure of \$37,512, with much more
than that balance in the treasury.
Circumstances brought a long period
of growth in the public debt (1) 1868,
following the Civil war, it was \$2,773-
236,173.

**Washing Won't Rid
Head Of Dandruff**
The only sure way to get rid of dan-
druff is to dissolve it, then you destroy it
entirely. To do this, get about four
ounces of ordinary liquid arvon; apply
it at night when retiring; use enough to
moisten the scalp and rub it in gently
with the finger tips.
Do this tonight, and by morning, most
if not all, of your dandruff will be gone,
and three or four more applications will
completely dissolve and entirely destroy
every single sign and trace of it, no
matter how much dandruff you may
have.
You will find, too, that all itching and
digging of the scalp will stop at once,
and your hair will be fluffy, lustrous,
glossy, silky and soft, and look and feel
a hundred times better.
You can get liquid arvon at any drug
store. It is inexpensive and never fails
to do the work.
